

Product specification

Feline Leukemia Virus gp27 Antigen

Date:	01/01/2022
Code number:	Feline Leukemia Virus (FeLV) gp27 antigen positive
Lot number:	F010122
Expiry date:	01/01/2023
Physical state:	Freeze dried
Size:	0,5ml Feline Leukemia Virus gp27 antigen
Titer:	1:180 in ELISA
Titer determination:	ELISA according to EVL testkit no: F1001-AG01
Preservative:	0,01 % (Thiomersal) preservative added
Storage:	Divide into aliquots, after opening and reconstitution freeze at -20°C. Avoid repeated freezing and thawing
Applications:	Usable as Feline Leukemia Virus (FeLV) gp27 antigen for standardization procedures on different immunological platforms
Source:	Concentrated purified tissue culture supernatant
Purification:	Inactivated, concentrated, centrifugated, 0,2µ filtered, cross filtered supernatant
Production method:	Cells persistently infected with FeLV clone

The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Nothing disclosed herein is to be construed as a recommendation to use this product in violation of any patents. The information present above is believed to be accurate. However, said information and products are offered without warranty of guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. We cannot be responsible for patent infringements or violations that may occur with the use of this product. No claims beyond replacement of unacceptable material or refund of purchase price shall be allowed.
