

Product specification

EVL

Monoclonal Feline Leukemia Virus gp70 Antibody

Date:	01/01/2022
Code number:	Feline Leukemia Virus (FeLV) gp70 antibody positive
Lot number:	F060122
Expiry date:	01/01/2023
Physical state:	Wet
Size:	1,0ml Feline Leukemia Virus gp70 antibody
Immunoglobulin class:	IgG
Titer:	1:2000 in ELISA
Titer determination:	ELISA according to EVL testkit no: F1006-AB01
Preservative:	0,01 % (Thiomersal) preservative added
Storage:	Divide into aliquots, after opening freeze at -20°C. Avoid repeated freezing and thawing
Applications:	Usable as capturing or detection MCA in ELISA or lateral flow and other immunological platforms
Source:	Tissue culture of monoclonal producing Feline Leukemia Virus GP70 antibodies
Purification:	Affinity purified, centrifugated and 0,8µ filtered
Production method:	Concentrated affinity purified IgG of αFeLV gp70 monoclonal antibody

The product listed herein is for research use only and is not intended for use in human or clinical diagnosis. Nothing disclosed herein is to be construed as a recommendation to use this product in violation of any patents. The information present above is believed to be accurate. However, said information and products are offered without warranty of guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. We cannot be responsible for patent infringements or violations that may occur with the use of this product. No claims beyond replacement of unacceptable material or refund of purchase price shall be allowed.
